

Montague Recreational Fishing Guide

Fisheries Compliance Unit

July 2024

Fishing is a fun, outdoor activity for the whole family. Fishing rules help ensure healthy and sustainable fisheries for future generations.

The waterways surrounding Narooma and Bermagui offer anglers with the chance of catching any number of species, from Marlin, Tuna and Kingfish to Snapper, Flathead and other reef species.

The Montague area also provides excellent freshwater fishing close to the coast, including notified trout waters, visit www.dpi.nsw.gov.au/fishing/recreational/resources/local for more details.

The Batemans Marine Park extends from Murramarang Beach in the north to Wallaga Lake in the south and includes offshore waters to the 3 nautical mile limit of state waters. Maps of the Marine Park are now available free for mobile devices, see last page of this brochure for details. For further information on marine park rules and zoning maps visit www.mpa.nsw.gov.au or phone (02) 4476 0802.

DPI fisheries officers routinely patrol waterways, boat ramps and foreshores to advise anglers about responsible fishing practices and to ensure compliance with NSW fishing regulations.

Information on bag and size limits and legal fishing gear can be obtained at www.dpi.nsw.gov.au/fisheries or by visiting your local DPI fisheries office.

To report suspected illegal fishing activity, call the Fishers Watch phone line on **1800 043 536** (free call) or report on-line at www.dpi.nsw.gov.au/fisheries/compliance/report-illegal-activity. All calls will be treated as confidential and you can remain anonymous.

RECREATIONAL FISHING FEE

When fishing in NSW waters, both freshwater and saltwater, you are required by law to pay the NSW recreational fishing fee and carry a receipt showing

the payment of the fee. This applies when spear fishing, hand lining, hand gathering, trapping, bait collecting and prawn netting or when in possession of fishing gear in, on or adjacent to waters.

All money raised by the NSW recreational fishing fee is spent on improving recreational fishing in NSW. Projects include:

- building artificial reefs to create new fishing locations;
- fish aggregating devices (FADs) to enhance fishing for dolphinfish and even tuna and marlin;
- creation of recreational fishing havens;
- angler facilities such as fish cleaning tables and fishing platforms;
- stocking of freshwater fish in dams and rivers;
- essential research on popular recreational fish species;
- restoring important fish habitat;
- marine stocking of prawns in estuaries;
- angler education and advisory programs such as the Fishcare Volunteer program, fishing workshops, Get Hooked...it's fun to fish primary schools education and fishing guides.

Much more information is available at www.dpi.nsw.gov.au/fisheries.

You can pay the NSW recreational fishing fee at www.onegov.nsw.gov.au or by calling 1300 369 365 or at many outlets throughout NSW, such as most fishing tackle stores, caravan parks, local shops, service stations and many Kmart stores.

Some exemptions apply to paying the fishing fee, including people under the age of 18, holders of pensioner concession cards and Aboriginal people. For further information on exemptions go to www.dpi.nsw.gov.au or call (02) 4424 7499.

You may not need to pay the NSW recreational fishing fee if you are fishing on a charter boat, hire boat or under the supervision of a fishing guide.

Please check with the charter/hire boat operator, or guide, before you go fishing. If they do not hold a recreational fishing fee exemption certificate you will need to pay the NSW recreational fishing fee.

RECREATIONAL FISHING CLOSURES

A number of fishing closures exist in the Montague area. These exist for a variety of reasons, from public health and safety to preserving unique aquatic environments. The majority of these closures are signposted and penalties apply for not complying with fisheries rules and regulations.

Total fishing closures

All methods of fishing are prohibited in the following waters.

Brogo Dam (Figure 1). That part of Brogo River and its tributaries, within 300 metres downstream from Brogo Dam outlet regulator.

General fishing closures

All NSW waters. During the period May to August (inclusive) each year Australian Bass and Estuary Perch can only be taken by catch and release fishing in any NSW waters except impoundments and the waters of rivers above impoundments

Figure 1. Brogo Dam

Recreational netting and trapping

Wagonga Inlet (Figure 2). The following waters are closed to the use a hoop or lift net, hand-hauled prawn net, push or scissor net (prawns), a crab trap or lobster trap; all the waters of Wagonga Inlet and its tributaries, westward of a line drawn northwest across the entrance from the northernmost extremity of Wagonga Head.

Conservation Restrictions

Critical Habitat Grey Nurse Shark - Montague Island is within the Batemans Marine Park habitat protection zone (restricted). Between 1 November and 30 April each year it is illegal to fish with a wire trace, bait or use nets (landing nets are permitted). It is also illegal to fish whilst anchored. For further information on marine park rules and zoning maps

visit www.mpa.nsw.gov.au or phone (02) 4476 0802.

Spearfishing and diving

Spearfishing in NSW is a popular form of recreational fishing and has been recognised for its selective fishing practices. Spearfishers and divers are permitted to use:

- a snorkel when taking fish;
- SCUBA and hookah apparatus for scallops and sea urchins only; and
- bare/gloved hand only when taking lobsters.

Spearfishers and divers are **not** permitted to use:

- a light with a spear/spear-gun;
- powerheads and/or explosive devices.

Spearfishing is prohibited in freshwater as well as many entrances, coastal lagoons and other tidal waters.

The following areas covered by this guide are closed to spearfishing:

All NSW ocean beaches, excluding the last 20m at each end of the beach.

Wagonga River (Figure 2). The waters of Wagonga River east of a line from the Princess Highway road bridge to a line drawn between the eastern extremities of the northern and southern training walls at the entrance to Wagonga River.

Figure 2. Wagonga River

GENERAL RECREATIONAL FISHING RULES

- It is illegal for recreational fishers to sell their catch.
- Taking Eastern Blue Groper (also known as Blue, Brown or Red Groper) is prohibited.
- Protected species, prohibited size or fish in excess of the bag limit must be returned to the water immediately.
- It is illegal to jag/foul hook fish other than through the mouth.
- Leave all commercial fishing gear in place and do not disturb commercial fishers going about their lawful business.
- You must not alter the length of fish by filleting and/or removing the head until you are well away from the water. This rule does not apply at areas normally used for cleaning fish, such as boat ramp cleaning tables, if the fish are for immediate consumption or immediate use as bait, or for fish that do not have a legal length. You may clean fish by gilling and gutting only.
- It is an offence to interfere with any oyster lease. Please ensure that your vessel, your vessel's wash or your tackle does not interfere with any part of an oyster lease, including the oysters.
- Abalone gut is prohibited for use as bait in NSW waters to prevent the spread of abalone viral ganglioneuritis (AVG).
- Collecting pipis by recreational fishers for human consumption is prohibited in NSW. A maximum of 50 pipis is permitted to be collected for bait and not be removed more than 50m from the high tide mark. Pipis and cockles may contain toxins due to natural algal blooms. The blooms are not always visible.

Fishing safely

Fishing is fun, but remember to take care and exercise caution. Rock fishing can be particularly dangerous due to the unpredictable nature of the ocean. Follow these basic safety tips at all times when rock fishing:

- Always wear a life jacket
- Stay alert to the weather conditions

- Plan an escape route in case you are washed in
- Never turn your back on the ocean
- Wear appropriate non-slip footwear and light clothing
- Do not jump in if someone is washed in - wait for assistance
- Never fish alone

For more information go to
www.safefishing.com.au

Responsible fishing

- Reduce wildlife injuries by attending your lines and avoid bird feeding areas.
- Only catch sufficient fish for your immediate needs. Release all others using best practice catch and release techniques. Remember all fish, including scavengers, are important to the ecosystem.
- If you retain your catch, dispatch all fish and invertebrates swiftly and humanely.
- Dispose of all litter and fish waste responsibly.
- Be considerate of others and keep noise to a minimum, especially in residential areas.
- Reduce wildlife injuries by attending your lines and avoid bird feeding areas.
- Use environmentally friendly fishing tackle such as lead alternative sinkers, biodegradable line, and non-stainless hooks where possible.
- Act responsibly when you have reached your bag limit and you remain in the fishing grounds.
- Do not interfere with commercial fishing activities or commercial fishing gear.

Recreational harvest of shellfish

Shellfish are filter feeders and they sometimes accumulate harmful substances from the water during feeding. Shellfish collected by recreational fishers should never be eaten raw. This is because recreationally harvested shellfish are not subject to the same strict food safety controls as commercially harvested shellfish. Consequently the NSW Food Authority recommends eating only shellfish harvested under a recognised program. For more information check the DPI Recreational Fishing Guide or www.foodauthority.nsw.gov.au or phone 1300 552 406.

Penalties

Penalties apply to persons who take or possess fish (including invertebrates, shells, etc.) taken in contravention of fishing closures, including aquatic reserves and intertidal protected areas.

Further information

For more information about fishing restrictions that apply to the Montague district waterways and beaches, please contact the;

Montague Fisheries Office.
