

OCEAN HAULING – GENERAL (CREW)

Profile

Total no. of Fishing Businesses (FBs) with shares	Total no. of shares	Reported annual catch (avg.)	No. of FBs accounting for 80% of the catch value
262	12,180	N/A	N/A

Draft share linkage recommendation

It is recommended that no changes be made to this share class.

Other proposed measures

- None.

What does the recommendation deliver for fishers?

- Maintenance (as far as possible) of the value of existing crew shares, while effective linkages are implemented in other Ocean Hauling share classes.
- Existing endorsed crew can continue to participate as they previously have.

Changes regarding crew in other Ocean Hauling share classes

- **Garfish Hauling Net** – Under a catch quota, it is proposed to allow the use of unendorsed crew.
- **General Purpose Hauling Net** – It is proposed to allow unlicensed crew to be used if the skipper holds more shares, but unlicensed crew will not count towards minimum crew size rules or the rules giving 4 person crews priority over smaller crews.
- **Pilchard Anchovy and Bait Net Hauling** – No changes to current arrangements regarding crew (that is, endorsed crew must continue to be used).
