Total Allowable Catch Determination – Abalone

Abalone Fishery

The Total Allowable Fishing (TAF) Committee has made the following Total Allowable Catch (TAC) determination for the Abalone fishery for the fishing period 1 July 2025 to 30 June 2026:

Quota Species	TAC Determination
Abalone	88 tonnes

The determination reduces the TAC from 100 tonnes in the current 2024/25 fishing period. The TAF Committee's Determination Report 2025/26 provides the basis for reducing the TAC including ongoing declines in primary indicators (catch rates, estimated density and biomass) for the fishery.

A copy of the Determination Report 2025/26 can be found on the DPIRD Fisheries website at [Total allowable catch and fishing effort determinations](#)
